MOTION

As an addendum to the Balanced Development motion, we offer the following motion for consideration.

WE MOVE that the Administration incentivize those CRA and TIF supported projects that have project-labor agreements (PLA) as part of our efforts to create more local, better paying jobs.

As the Administration prepares ordinances to update the CRA and TIF scoring accordingly, **WE MOVE** that the Administration also pursue similar PLA language as it relates to major projects, such as infrastructure and capital improvement projects.
